

ABUNDANCE & HARMONY KIT™

Workbook

**Special Steps to Use the Magical Power
of 3, 6 & 9 and Maximize this Event!**

Welcome to the 'Global Awakening Project!' Live Event!

A Message from Host and Founder, Darius M. Barazandeh

Welcome to this special LIVE event and thank you for joining us in the 'Global Awakening Project'. Do you ever wonder *how to truly transform your life*? After 10 years and helping more than 6 million people all over the world, I've discovered there is one predominant answer.

The answer is your **energetic frequency**.

Your day-to-day energetic frequency determines how you feel, what you do, and what you think. It also connects each of us to:

- The new reality we want to create or continue...
- The experiences of abundance, joy and possibility we may crave...
- And the new opportunities of love, goodness and expansion that we may desire...

I hope you'll join us each day for our **LIVE daily help** sessions **Monday, Tuesday, Wednesday and Thursday**. Just visit our webcast listening page for a streaming player & phone dial up information: <https://live.youwealthrevolution.com/now.php>

Plus each weekend I'll send you **special one-time gifts, Mp3 downloads** and updates to help you transform your life in the 'Global Awakening Project'.

As part of your '639 Hz Abundance & Harmony Kit™', this special workbook contains a special energy re-calibration exercise in the pages that follow. Enjoy!

Much Love and Light,

- Darius B

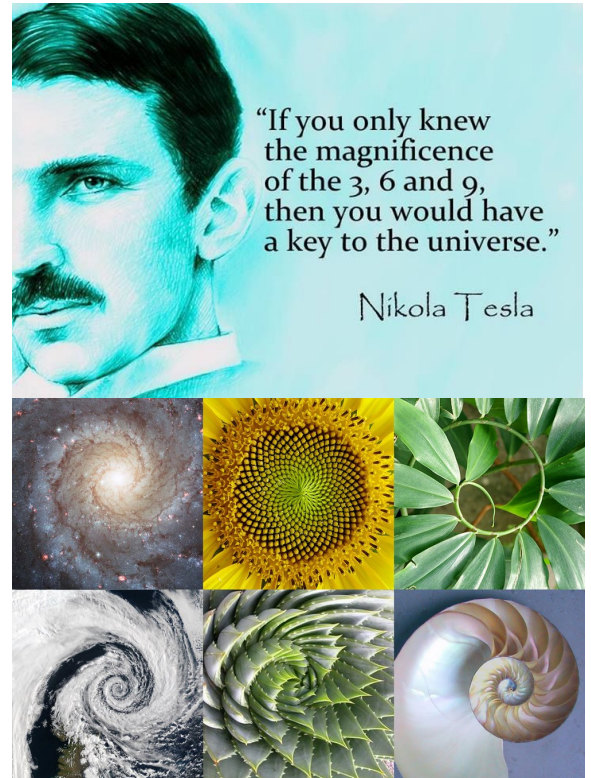

Darius M. Barazandeh, Host and Founder - Youwealthrevolution.com

Instructions – Creating Your New Life Using the Power of 3, 6, and 9:

Why are 3, 6 and 9 so significant?

You may already know that there are natural patterns and geometries that appear in space and nature. We see this in the ratios of flowers, hurricanes, shell spirals, plant growth, galaxies and even during the embryonic division that allowed you to be reading this now!

This has been coined ‘**sacred geometry**’ and here are some examples of the amazing replicating patterns that organically show up in nature (*image on the right*):

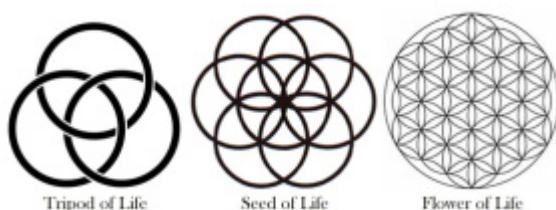

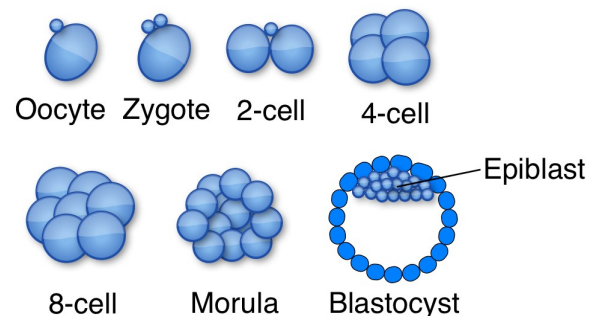

Even our own growth during embryonic division occurs following a pattern. Cell division goes from 2-cell, to 4-cell and then to 8-cell, etc. The repetition of these numbers has not only helped create us, but they are also part of an amazing discovery called ‘vortex math’.

But Wait...Where are the numbers 3, 6, and 9?

As you look at patterns in vortex math you may notice that some numbers are missing. For example in the vortex math pattern 2, 4, 8, 16...

The numbers 3, 6, and 9 are missing...

Scientist Marko Rodin, creator of the Rodin Coil (a free energy device) believes these numbers are left out of organic creation processes because they carry a special informational and energetic purpose.

Rodin also believes that the numbers 3, 6, 9 represent what he describes as a ‘flux field’ of higher dimensional energy from the 3rd to 4th dimensions. This energy could be the doorway

that influences the physical matter of reality here on Earth. Is this what Nikola Tesla meant when he said with 3, 6, and 9 you have “a key to the Universe ” ? I think it’s entirely possible.

3, 6 and 9 have repeated shown up throughout the ancient and modern world on revealing many of the deepest spiritual truths imaginable. For example, these numbers appear and are base computational aspects in ancient and sacred geometry shapes, such as the double Torroid, The Golden Ratio and Fibbonacci Phi ratio calculations and more.

So How Can You Use the Power of 3, 6 and 9 in Your Life?

Step 1 - Describe one scene from your ‘new life’ that you would like to experience.

Be as specific as possible. It could be a moment, a day or a special experience that truly is inspiring, fulfilling or heart-felt for you.

Be sure to note of:

- **Sights** – *what are you seeing?*
- **Sounds** – *what sounds do you hear or experience?*
- **Inside or outside?** – *are you inside or outside?*
- **Smells** – *is there a smell? (for example, fresh pine or a balmy beach).*
- **Feelings** – *what sensations are you feeling in your body?*

NOTES:

Step 2 – Call to mind this scene very quickly for just 1-2 seconds. Allow your mind and body to feel the ‘essence’ of this situation in one concentrated ‘flux field’ state. In other words imagine a warm blanket of this energy experience at 100% for just 1-2 seconds. You can also silently repeat the word ‘NOW’ as you feel the energy. Think of this as your ‘Now State’ .

Step 3 – Next pick a time 3 times per day to repeat this feeling at the following intervals (Morning, Noon and Night). Since you are feeling this for only 1-2 seconds each time this should only take about 3-10 seconds in the morning. And it will only take you about 10-20 seconds at noon and about 40 seconds to 1 minute at night.

Morning	Noon	Night
Repeat 3 Times	Repeat 6 Times	Repeat 9 Times

3, 6, 9 Energy Alchemy Formula

When you use this 3,6,9 formula for ‘creation’ I believe you will harness and use the power of higher energies for the alchemical creation of your ‘Now Reality’ . But you will also feel more positive, hopeful and re-charged. And you’ll also draw on higher energies to make manifest what you desire. Imagine all universal energies now supporting your

desired new reality creation. Not to mention charging your subconscious mind with the reality you want to create.

All this by harnessing the power of 3, 6 and 9!

Want More? Now, to magnify this experience take a listen to the audio component of this special gift the **369 Hz Abundance and Harmony Mp3**. This Mp3 includes a 369 Hz frequency plus 3 Hz, 6 Hz and 9 Hz overtones that magnify the energy of these combinations. You can play this musical track as you bring forward this scene in your experience.

Plus I look forward to seeing you on the daily energy sessions Monday-Thursday with our healers, teachers and masters - check your calendar of events here:
